# PROJECT MANAGEMENT

## AEC ATTESTATION OF COLLEGE STUDIES EVENING | 1 SEMESTER

LCA.CL

The **Project Management program (AEC)** paves the way to a multitude of exciting professions – ideal for students who are rewarded by setting a project in motion and seeing it through to completion.

The program encourages flexibility and takes all fields into account, enabling students to acquire skills such as: creating projects using specialized computer software, applying management strategies following structured models, using the latest project management tools, tailoring the selection of management tools to suit the structure of an organization etc.

Students learn in a stimulating environment, preparing them to successfully enter the job market.

---

*Are you looking to begin or reorient your career? If yes, this program is for you.*

---

### EMPLOYMENT PROSPECTS

By the end of this program, graduates will be able to apply their knowledge and skills in the following positions:

- Manager of a marketing project,
- Manager of an engineering project,
- Director of a multimedia project, and
- Director of an information technology project.
